

Deployment Guide

1. Sample network diagram

Sample network diagram

2. Router PBR example: Cisco Router

a. Outward : user request traffic

```
access-list 100 permit tcp 192.168.10.0 0.0.0.255 any eq 80
```

```
route-map userrequest  
match ip address 100  
set ip next-hop 192.168.20.2
```

```
interface fa1/0  
ip policy route-map userrequest
```

b. Inward: Server Response from origin website

```
access-list 150 permit tcp any eq 80 192.168.10.0 0.0.0.255
```

```
route-map swiftcache-response  
match ip address 150  
set ip next-hop 192.168.20.2
```

```
interface fa0/0  
ip policy route-map swiftcache-response
```

note: operator may consider enable IP SLA monitoring on router to minimize service interruption
